The Inter Nos.

Three years ago our principal, Mr. Harold Steele, suggested that we publish a school magazine. The work was taken up enthusiastically by the students and each year has seen a marked improvement in the magazine.

Last September conditions were not very favorable for the *Inter Nos*; teachers who had been a great help to the editors had resigned and most of the old board of editors had graduated. But Gertude Treman was elected Editor-in-Chief and through her able leadership there has been marked improvement. The editors have worked diligently and now they are rewarded by seeing our paper a close rival of those printed by the larger schools of this vicinity. The present staff is as follows:

GERTRUDE TREMAN	<i>Editor-in-Chief</i>
RALPH FINLEY	<i>Associate Editor</i>
LEROY STEPHENS	<i>Business Manager</i>
DONALD ADAMS	<i>Assistant Business Manager</i>
RUTH STEVENS, CATHERINE BLISS	<i>Literary Editors</i>

Literary Society

One of the most pleasing features of our High School life is the Literary Society work. It affords not only a delightful break in the routine of school work but it is an important aid in the student's development.

The West Aurora Literary Society was formed in 1887 and has grown and flourished for twenty-three years. Harry Allen was the first president while others who were given this distinction are Lee Mighell '88, Sam Ingham '90, Thaddeus Merrill '97, Earl Robinson '98, William Wilcox, '98, and Frank Court-right '03.

Meetings are held alternate Friday afternoons and with the exception of the teacher who plans the program the work is conducted entirely by students. The programs generally consist of music, essays, and recitations but occasionally a one act farce is produced. At the conclusion of the program there is a student critic report followed by a faculty critic report. The programs have been very popular and many visitors have enjoyed them. The list of officers for the three terms of the present year is as follows: Presidents—Guy Johnson, Egbert Sexton, Leroy DeFrates. Vice-Presidents—Fred McManus, George Scott, Ira Catlin. Secretaries—Agnes Howell, Orise Newman, Fred McManus. Assistant Secretaries—Martha Clayton, Anna Winslow, Ruth Stephens. Treasurers—Robert Wilford, Mildred Hill, Demmer Golden. Sergeants—Charles Howell, Ted Snow, Vernon Brockway.

Debating

H. A. FINNEY
Coach

For the first time in several years, West Aurora has been successful in debate. At the beginning of the year, when Mr. Finney first put in the call for volunteers, only ten contestants appeared for places on the teams. Prospects for a winning team did not look bright, since only one out of the ten had any previous experience in inter-scholastic debates. However, Mr. Finney was confident and he said that inside of a few months he would have a team which could not be defeated by any in the state.

A practice debate was held on the commission form of government question; and, shortly after the question for the league was announced, the members of the two teams were chosen by a preliminary debate given before the school. The question was, "Resolved, That a graduated income tax, incomes not exceeding \$4000.00 being exempted, should be levied by the United States government. The constitutionality of such a tax is conceded." The team chosen to uphold the affirmative against DeKalb High School, was Ida Treman, Edward Holmblad, and Abner Thomas; while those on the negative against East Aurora, were Roland Pierce, William Clausen and Alfred Heinzelmann.

Both teams worked hard for two months under the excellent coaching of Mr. Finney and Mr. Smith, and the results of the two debates on the evening of

THE AFFIRMATIVE TEAM

March 24th, showed that they had not worked in vain. The affirmative team gained the verdicts of two judges in the debate with DeKalb at our high school, the negative unanimously defeated our friends from East Aurora at Clark Hall.

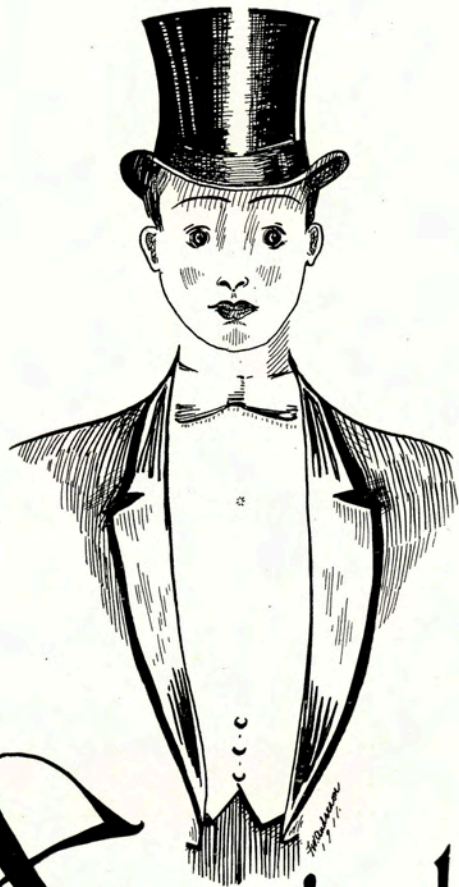

Winning both sides of the question makes the victory complete, and more than counterbalances the defeats which W. A. has suffered in the past few years.

Ottawa was the only other school in the league to win both sides of the question; but because no satisfactory date could be arranged to decide the tie, and because the Senior class play demanded the attention of two members of the squad West Aurora and Ottawa will this year share the championship of the league.

The Junior Picnic 1910

Among the many accomplishments of the class of 1911 which have been rightly termed successes, the Junior Picnic stands out prominently. Its success may be attributed chiefly to the President, Francis Carr, to faithful committees, and to Miss Smith. Through the great kindness of Lydia Raymond '10, was secured transportation by special car and the rental of the banquet and dance halls at Electric Park.

The picnic began at the transfer station about four o'clock Saturday afternoon, June 11, 1910, the Senior class being the guest of honor. All entered into the spirit of joy-making long before arriving at the Park. "Stunts" introduced by several of the faculty members served to entertain most excellently and there was no abatement of the merriment throughout the whole evening. Upon arriving at the Park, we learned that the Senior Baseball Team had defeated the Junior Team by a large score. This, however, did not interfere with any of the fun in store. The call to the Banquet Hall was a welcome call and the feast surpassed expectations. Throughout the entire hall the class colors and the school colors were in every place imaginable.

On one side was the Senior table adorned with blue and gold, on the other side the Junior table with black and gold, and in the center a row of tables with red and blue at which sat the faculty and "toaster."

When Mr. Douglass, as toastmaster arose and requested that all eyes be turned to the "Bridal Table," every one knew that it was the signal for an excellent entertainment which was directly to begin. At this co-called "Bridal Table" were seated Mr. and Mrs. Douglass, Mr. and Mrs. Steele, Mr. and Mrs. Finney, and Mr. Watson and Miss Smith. Throughout the remainder of the Banquet the "Bridal Table" was the cynosure of all eyes. In a few words Mr. Douglass told how he chanced to be the successor of the lamented Mr. Greenman and how in a brief time he had come to love his new friends almost as well as his old ones. He hoped that his friendship with the students of West Aurora High School might be greatly strengthened in the years to come.

The first toast of the evening was by David McCredie who gave a few words of advice to the Juniors, who were attacked from many sides. When Mr. Douglass introduced Mr. Watson as a great story teller we were shocked, but before he had concluded we were convinced. He will be remembered for a great many things not the least of which will be his toast in which he proved himself a very able entertainer. "Pinkie's" toast on "Via Wireless" will long be remembered. It was his class that constructed our Wireless station and he, who received and translated the first messages for us. The toastmaster then accused Heinzelmann of being a "bluffer." That worthy, straightway arose, called his oratorical powers into command and most strenuously defended himself. He gave a splendid toast on "Bluffing It Through."

Upon the appearance of Mr. Finney in the role of a toaster, being introduced as "The Maiden Fair," the hall rang with cheers and laughter. His toast was on "Great and Small" and he told a story of how James Craig, "Pinkie," had invented a time compression watch in the great Sahara Desert. Gertrude Treman made a clever speech on "Athletics;" she dealt fairly encouragingly and lovingly with our athletes. Gertrude O'Meara's address to "The Faculty" was all too short. After we had heard that Miss Smith was to leave, we had wondered what her last lecture would be like. She was called upon to make a toast on "My Last Lecture" and the hall was stilled to silence as we listened to her parting words. And yet we were happy even to hear them. Why? Because it was Miss Smith who was speaking. In Francis Carr's few words "To the Seniors" he gave them credit for being the best class that had yet graduated from the W. A. H. S. It was exceedingly well given and was especially appreciated by the Seniors and Faculty.

The last on the program was Mr. Steele. After a few jocose observations about two well known Seniors across the Hall, he spoke with feeling upon "Our Future." He hoped that we should always be blessed with friendship long and enduring and that our lives might flow along as peacefully as they had during the past four years. After listening to such fascinating toasts we were reluctant to leave. The spell was soon broken, however, and the company crossed the river to the dance hall where nearly all spent the remainder of the evening, while the rest either went boating or strolled about the park. The special car came all too soon to carry the merry makers back and the Junior Picnic was a thing of the past. It had ended with everyone pronouncing it a grand and great success.

The Football Banquet

"A health to the girl that can dance like a dream,
 And the girl that can pound the piano;
 A health to the girl that writes verse by the ream,
 Or toys with high C in soprano;
 To the girl that can talk and the girl that does not;
 To the saint and the sweet little sinner—
 But here's to the cleverest girl of the lot,
 The girl that can cook a good dinner!

WILLIAM CARY DUNCAN.

Although the last football game was played on November 24, the season could not be considered as ended until the annual banquet. This was given by the girls on the evening of December 3. The banquet this year easily surpassed all previous ones and it certainly was enjoyed by every one present.

There is no need to say that the dinner was excellent. The way in which it disappeared, may stand witness to that. All the guests appreciated the efforts of Miss Patrick and of the girls who prepared such a banquet for us.

After dinner the following toasts were responded to, Mr. Finney, acting as toastmaster.

History repeats itself	CAPTAIN SEXTON
The Joys of Training	PRINCIPAL O. O. WHITE
Horatius at the Bridge	DON CURRIER
Loyalty	MANAGER CARR
Psychology of the Side Lines	FLORENCE KNICKERBOCKER
Seeing the game through a megaphone	COACH SMITH
To the East Side	GERTRUDE KENNEDY
To the Scrubs	ALFRED HEINZLEMANN

After the toasts, the members of the first football squad adjourned to the board room where Fred McManus was elected Captain for 1911.

Every one went to the "Gym" where dancing was enjoyed for the remainder of the evening.

The decorations this year were exceptionally fine. The upper hall was decorated in red and blue, while the same color scheme was carried out in the Gymnasium. Never had the old "Gym" appeared as it did that night. The posts were covered with red and blue paper, while all around the walls were red and blue streamers. Banners of all descriptions were also used to help cover up the wainscoting. In the south end a large "W. A." was prominent and the electric lights were covered with red or blue paper.

At eleven-thirty everyone left, declaring that a finer banquet or a better time could not be wished for.

TO THE SCRUBS

Mr. Toastmaster, Instructors of Learning, Girls and fellow pigskin followers: The object of my speech tonight is to take the scrub and follow him through his high school football career and up to the verge of being cast out of the pleasures of football life. To the scrub it is perhaps one of the most joyful nights of his life, but to us Seniors, who are attending this annual banquet for the last time, it is a very sad occasion to think that such a night will never come again.

Three years ago tonight, little did we think of the time that such scrubs as we were, would be giving their last speeches before such an assembly as this. If I recall correctly, "Scotty," "Swede" and "Zeke" compared very well with such infants as Deutchler, Russom and "Brock." By this I do not mean that the latter will be as great as the former but there is a chance for great development among the scrubs.

The attitude of the players is very different from year to year. The first year out, the average scrub is a little lazy and does not believe in the idea of work, when he knows he cannot make the team. He does not train, but manages to pull in on the banquet. When the second year comes, the Sophomore makes up his mind to win and so he does. By hard training and steady work he gets in at a guard or perhaps the back field may have a place for him. The Junior, as he pulls on his moleskins, is ready for a rousing time and does not take the work seriously enough, while the Senior trains to the limit, thinking of nothing but a hard battle for victory.

Through the excitement of the Thanksgiving day game, people realize that there are scrubs on the side-lines who are willing and ready to enter the game at any time if necessary; but not only are these fellows eager to get into the game, but all through the year they come out night after night and unselfishly give time and efforts to help develop a team to which they know they can not belong.

And so, scrubs, this banquet is as much for you as it is for us. For some, this is the first. We are going but you are remaining and may tonight's scrubs, who will be tomorrow's "A." men, fight hard and always be true to the highest ideals of High School athletics for West Aurora.

HISTORY REPEATS ITSELF

I used to think that history of all things was most dry,
 Just giving snapshot glimpses of old heroes passing by.
 We first looked o'er the foot lights into fair Gideon Land,
 And saw old Joshua put to flight the Midianitish band.
 We remember Alexander with his philanthropic view,
 To imbue eastern nations with thoughts profound and new.
 Too, Xerxes thought he did a most unusual stunt,
 When with some boats he bridged the pond we call the Hellespont.
 In counting deeds heroic, historians quite agree,
 That Leonidas and his brave host at old Thermopolae,
 Should have Carnegie medals and if they can't wear them now,
 Perhaps they left behind them a sister or a frau.
 You've all heard tell of Hannibal the Punic hero bold
 Who dared to scale the Apennines for a' the snow and cold;
 And that whole line of Caesars most every one a star,
 Has sent the name of Rome not only near but far.
 Napoleon tried to bluff the world, but found that wouldn't do,
 For any hero great or small must have his Waterloo.
 England hailed Old Cromwell, her Savior and Protector,
 But found her senses just in time to prove him a Neglector.
 And there's our own George Washington, fit name to end the list,
 Who wore a feather in his hat; his hair done in a twist.
 But why count heroes old and stale who fought in ages past,
 There's none can shine with our own boys who fought on Thursday last.
 The great Thanksgiving Day had come, the day of all the rest,
 When the Aurora football teams should see which was the best.
 The side lines fairly weaved that day with pennants red and blue,
 And every neck was craned its length to see what we could do.
 The band struck up Old Loyalty, the signal pealed its call
 And then began the contest in history best of all.
 East Side kicked off to our boys, our Johnson, hero true,
 Advanced the ball a full ten yards, what more could any do.
 What Caesar leading his brave hosts could plow way more free,
 Than "Wardie" plowing through the line as fast as fast could be.
 And there's our Little Burkie, called Frederick the Great,
 Who carries the ball around the end at a most outlandish rate.
 And Herculean Sexton who can bear a world of weight.
 He's Captain of the whole shebang, a very brainy pate.
 We can't forget McManus whose name has gone afar,
 'Tis said he's known throughout the state as the tackling football star.
 Did you see Crane plunge through for gains on that fake punt formation?
 'Twas fun to see the East Side stand in utter consternation.
 We all are fond of Currier who towers above the rest,
 A hero just to look upon who equals any test.
 You've often heard the adage that he who runs may "Reid,"
 And this holds good in Arthur's case who's always in the lead.
 We bank on plucky Wilford, a good star on offense,
 He carries out a family trait in football eminence.
 Another hero is our George with "Scottish" rite to boast
 That he can tackle with his might and check the East Side Host.
 You all remember Avery, he's good on breaking through
 And it isn't every player can do what he can do.
 And last, but far from being least, is Ira, tall and quick,
 I guess he punts about a mile, a most tremendous kick.
 Now all these heroes being named, I guess you plainly see,
 That we could scarcely lose the game with all this loyalty.
 'Tis true the East Side thought that they had won the day,
 And held great celebrations, so I've heard some people say:
 But there's was old time football whils ours was brand spank new,
 And I should rather think that favored us,—don't you?
 And when future generations on new Thanksgiving days
 Shall be continuing these old historic plays
 Don't look for these same heroes for they'll be grandpas then,
 Cheering on the side-line with thoughts of nineteen-ten.

FOOTBALL THROUGH A MEGAPHONE

Here's to our toastmaster Finney
 So flossily fair and so naturally funny;
 May his wit and his wisdom forever increase,
 As do the tie games between the West and the East.

Here's to our Knights of the Red and Blue,
 As across the field they come in view,
 The coin is tossed, the whistle blows,
 And the fight begins against our foes.

Into the game they go with vim,
 Of course each man intends to win
 It is a valiant army, a veteran throng;
 A host of gritty warriors, 11,000 strong,
 Behind the line are Gab, Swede, Johnson, Swode and Guy,
 And Rob, Bob and Ribert Wilford take their stand hard by,
 While close beside the Red, Frank and Cranie stand alert.
 Then come Goliath, Hercules, Achilles, Frederick Burke.

Across the bloody battle field
 With slogans dire they push.

Come on you Freddie, show us how you run to Sugar Bush,
 'Twas like a jolly Farm Yard Scene,
 That filled us all with mirth,
 When Mary's little Lamb, punted the pigskin off the earth.

From the time the whistle sounded
 Until the hard fought battle's ended
 From our side line came a rumble
 That became a mighty roar
 And our students wildly rooting,
 With our colors gaily flaming
 And a band that did *not* play the same tune o'er and o'er.

Now the battle's o'er, and the game is done,
 And neither side has lost nor won,
 The rooters all are sorry that it ended with a tie,
 But a man can't have his money if he wants to have his pie
 So since you met them valiantly and thumped them quite a bit
 We'll forget the *ifs*
 Here's to you, team
 For you're i-t—IT.

The Irish Fellowship Club

President RALPH FINLEY
 Secretary MARION MAHAFFY

The Irish Fellowship Club was organized on the 15th day of February, 1911. There were two reasons for forming this club of Irishmen—the first was to promote the social side of school life and the second, to inspire a feeling among the students (who are representatives of Erin's Isle). There has been a feeling throughout most high schools of two hundred students or more, that the pupils do not know each other as well as they might.

In following out the ideas of the Irish Fellowship Club we shall attempt to draw the classes together, thus promoting a better social feeling. This condition will be reached by different social events which will occur from time to time.

The membership is not limited, the only restrictions being that each member must be of Irish descent. The faculty are to be enrolled as honorary members.

If at any time your mind grows forgetful as to who we are, just remember who it takes to beat the "Dutch."

An Irish Melody

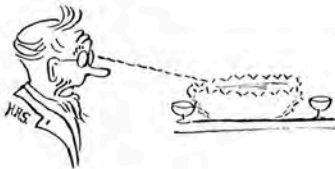

Dedicated to the I. F. C.

Oh, Finley dear, and did you hear—
The news that's going round—
That Nellie Wright is Irish too
And born in Dublin town.

And when the Club was formed one day
In West Aurora High,
Why in came Swede and Heinzelmann
As loyal Irish-men.

CHORUS

The Fellowship Club a party gave
On good St. Patrick's Day,
And there were songs and merriment,
And Paddies blithe and gay;
The punch was green,
But spiked, Oh, No! !
Yet the preacher thought it gin,
And we are doing penance now,
For dancing in the Gym!

JOKES

Owed to Amuse

Sweet music soothes the savage breast,
It also charms the female heart.
Awakens feelin's little guessed
And causes sprouts of love to start.
O, education's not in vain,
And West Side High School still doth lead,
And not for naught that look of pain,
And not in vain the poet's steed,
Observe that look, unspoken words ;
Gaze on that song which soon should melt
The hardest heart and scare the birds,
Could it once be heard and felt.
Who would not be a banjo string
Caressed by such a lovely thing.

Limericks

There was a young athlete named "Eddie"
Who boasted he had a real "steady,"
But the others looked wise
And asked many "Whys?"
When Ethel yelled up, "Dear, I'm ready."

There was a tall Senior named "Sex"
Who had traits of the bad boy of Peck's,
Before taking his hat
He must put out the cat,
His charming young hostess to vex.

A white headed youngster named Guy
Was heard to remark on the sly,
That packages small
Are the best ones of all ;
But now he is wondering why.

There was a young kid named Willie
Who, over his Physics went silly,
But gave up in despair
On compression of air,
When the water completely soused Willie.

There was a young sport named "Heiny"
Who appeared to be awfully shiny,
He tried to debate
But met a sad fate,
For his nose grew frightfully tiny.

Blessings on thee little man,
Country boy with cheeks of tan

There was a wise senior named Carr,
Whose thoughts from Batavia were far.
On Plum Street he strayed
And there might have stayed
But "Mother" yelled down "Aurevoir."

A dignified Senior named Scott,
Could work, but would much rather not.
He thought that his rest
Of all things was best
For he thought that all working was rot.

A shy little fellow named Pierce,
Had a look in his eyes that was fierce,
But he was known to debate
At an out-landish rate,
Till his shyness appeared rather "Skierce."

Gertrude Kennedy: "Say, George, have you sent my name in to the printer?"
George Scott: "No, why?"
G. K.: "Because I want to change my name."
(Francis Carr faints away.)

Dow Harvey, reading Ancient Mariner, "They lost their wind!"
Wm. Clausen: "The Mariner held him with the apple of his eye."

Mr. Stephenson (in Physics): "A person while touring in England was in the woods and made a certain remark. He went back in a few years and this remark was still echoing back and forth."

Harvey (who is always talking): "That seems to be almost perpetual motion."
Mr. Stephenson: "Well I've heard some voices that are almost perpetual motion."

Crane: "I've been shadow boxing—boxing "Spike" Winslow."

John Dooling in class: "Aw, I don't believe they can measure the distance to the sun. About as well try to measure the distance to heaven."

Mr. Douglass: "But, Heaven is farther for some people than for others, John."

Some soar aloft on winged steed
To pluck their learning from the stars;
Some motor in at fearful speed
Or ride to school upon the cars—
But Arthur Phillips jumps astride
His fiery, untamed mustang strong,
Unties the halter when it's tied
And bravely shouts, "Git tup," "Go long."

There is a young giant called "Zeke"
Whose shoes are so tight that they squeak,
He towers in the air
Above Agnes so fair,
So she has to lean backward to speak.

There was a young fellow named Dooling,
With the girls he was always a fooling,
He was really quite bright
But stayed out late at night,
And this interfered with his schooling.

There was a fair senior called "Pete,"
Whom Freddie was heard to call sweet,
And away out the pike
"Fritz" often would hike,
To call at her country retreat.

A solemn young senior named "Dub"
One noon after eating his grub,
Got in a bad scrape
On the rear fire escape,
But such is the fate of a cub.

There was a young teacher named "Bobby"
And teaching was surely her hobby,
After teaching all day
In an admirable way,
She joshed all the boys in the lobby.

Agnes H.—“Is that soft spot on every baby’s head?”

Burkie—“Sure.”

A. H. (feeling of B’s head)—“It isn’t on yours.”

Mr. Stephenson (at football banquet)—“This cake reminds me of that my wife makes.”

Mr. Fordham—“Can’t your wife make cake either?”

Beth McW.—“I have been thinking that I would come back and take Latin next year.”

Mr. Douglass—“That would be nice—if you would *both* come back.”

Pearsall—“Here’s a message I just received over the wireless.”

Mr. Triggs—“Aw, the wireless has been disconnected for the last week.”

Don A.—“If all the moons were honeymoons.”

“Rah” Avery—“If all the coons were Tuttie coons.”

Frank L.—“Hard practice tonight; my breath was coming like Burkie comes to school.”

Mr. Smith—“How’s that?”

“In short pants.”

Mr. White—“Were you talking in my class, Egbert?”

Egbert—“No, Mr. White, I never talk in my sleep.”

Miss Goodwin—“What are your initials, Mr. White?”

Mr. White—“O, O.”

Miss Goodwin—“Where does it hurt you, Mr. White.”

A fine German teacher named “Witty”
Fell terribly sick,—What a pity!
’Twas not from her head,
At least so ’tis said,
But to rest her poor voice, Nicht Wahr, Witty?

There was a young woman named Susan,
Whom all the boys would have chosen;
She said to them—“Nay!
I can’t see it that way,
I’ve decided to marry Van Dusen.”

Would it seem quite natural
If Florence K. should say
That she’d be glad if Freddie’s seat
Were moved quite far away?
Or Marion some morn appear
In scorn of older maids,
To set the style of letting
One’s hair hang down in braids?

TWO OF THE IMMENSE PAN CONVEYORS AT THE
PORTO BELLO PLANT

THE PANAMA CANAL

Is the greatest work of its kind ever undertaken in any age by any people. The successful carrying on of this work has been made possible only under the guidance of the United States government and by the application of modern methods and modern machinery. The locks and dams are the largest ever built, and to supply material for the work in sufficient amount to keep pace with the other work, it was necessary to build a plant especially for this purpose.

The Great Crushing Plant at Porto Bello

Which is located twenty miles from the canal, furnishes all the stone for the concrete work. This plant has a crushing capacity of 3,000 cubic yards per day. Conveying Machinery, which could handle this immense quantity of stone in a way satisfactory to the Government Engineers could be obtained only from an Aurora concern. All the conveyors and elevators for this plant, approximating \$100,000 in value, were designed and manufactured in Aurora.

The pivoted bucket conveyors used here are the largest ever built and the plant itself is one of the largest ever constructed.

This plant is but one of many in all parts of the world designed by Aurora Engineers and equipped with machinery built in Aurora.

The Aurora Beacon

The mentally well balanced men and women are those who keep posted on the events of the day, both at home and abroad so that all the time they have a world wide vision of what is and is doing. To do this they must be constant readers of some really good daily newspaper, which prints all the news and prints it while it is fresh, together with editorials on live subjects.

THE AURORA BEACON is such a paper. "All the news and first" is the order of every day in the Beacon office. A sufficiently large force of energetic reporters to thoroughly cover the city of Aurora and "Up River Towns" is constantly employed in every one of the surrounding towns and villages. Full Associated Press service with leased wire into the editorial rooms furnished the news from ALL THE WORLD. Strong editorials on current topics. The best serial and short stories money will buy. Special features for ladies and for children. Society news that is full and complete. Sporting news which, during Baseball season, includes the pink sheet etc. etc.

More people in Aurora read the Beacon than read all the other daily papers combined that are sold in this city, which makes the Beacon, not only the best advertising medium in Aurora, but all that is really necessary for any advertiser to use. The Beacon goes into 90 per cent of the homes, and advertisers can not beat that no matter what they do.

The Beacon invites you to join its big family, if you are not with it now.

Get in line Boys and Girls, make a hit. You can do
it if you come to 18 Downer Place and get a pair of
those new style Pumps we are now showing for
Spring and Summer.

DO IT NOW

There was a fellow named "O. O."
Who liked the girls only so - so.
However, quite late,
He met his sad fate,
And she told him his case was do - do.

There was a young lady named Mable,
Whose existence was surely no fable.
Her lover was White.
They decided one night
That they'd jointly preside at a table.

There was a sweet lady named Vest,
Whose husband said only in jest
I wish you would go
As I'm short on the dough
And she started at once for the west.

There was a professor named Carl
Whose household affairs were a snare
His wife went away
And she said she would stay
Unless he sent dough by the bar'l.

When it comes to a question of buying our
supplies, and quality is the first thing we
consider. Price is nothing to us, until the
quality satisfies. That is why our store ex-
cels in every way.

Burkie to Don Currier:—"Young man
you annoy me!"

Everybody works poor Francis.....
He hustles round all day
While others take life easy
He's a "making hay."
The girls all love "Belinda."
That's why he's President
Everybody works poor Francis
The Lazy Loafer.

We have a "Prof." called "Steve"
But now we're going to part
He takes the kids up to the "U,"
To give the boys a start.

A visitor from Northwestern speaking
to Mr. White—"Yes, I knew Mrs. Douglass
in Northwestern. She was a leader there."

Mr. Douglass over-hearing the remark—
"Perhaps, but she is a driver now."

The Annual Board rejoices that Mrs.
Douglass can adapt herself to circum-
stances.

Aurora Public Schools

===== *WEST SIDE* =====

Aurora is an an ideal place in which to live and offers educational advantages scarcely excelled. A large number of pupils from outside the district are in attendance at the West Side Schools. With the excellent means of transportation which Aurora enjoys, it is quite practicable for pupils to come some distance each day from almost any direction.

The West Aurora Public Schools stand for the highest degree of efficiency in scholastic and moral training. The teachers are experts in their respective lines and the "school spirit" prevailing is of a very high type. The West Aurora High School is splendidly housed and excellently equipped in all departments, including Manual Training, Domestic Science and Art. For years the West Aurora High School has been a leader in debating and in athletics, contesting successfully with the largest schools in northern Illinois. Pupils residing outside the district pay the following rates of tuition; High School, 75 cents per week; grades, 50 cents per week.

The Superintendent is always pleased to meet those who may desire to enter the West Aurora Schools. Appointments may be made by phone at any time or he may consulted at his office in the High School Building on any school day from eight to nine o'clock or from four to five o'clock.
